COVER LETTER

Dear Hiring Manager,

With almost 4 years of experience in full-stack web development and system architecture. I am confident, I will be an excellent fit for the company next Software Engineer with .NET.

At Mzizi (PrimeForce), I was responsible for leading the development of brand new .NET Core based CMS that offers users powerful functionalities for managing content. I gain experience in building and maintaining innovative applications with .NET Stack, .NET Core, HTML5, CSS, JavaScript/React, SQL, Azure, and others. I was working on different types of software products like WPF, designing custom REST APIs and ASP.NET and ASP.NET core apps.

I have refined my strengths through three years of experience in software development. The following is a snapshot of my technical skills:

- Web applications
- Database programming
- Unit and Integration testing
- Object-oriented programming and design patterns

It would be a pleasure to learn more about company's needs, and I would welcome the chance to provide further insight into my knowledge of technical abilities, personal attributes, and experience in building applications compatible across multiple platforms, browsers and devices.

Thank you for considering my candidacy for this position. I hope to hear from you soon to schedule an interview.

Sincerely,
Moenga Brian
